Is it time for you to build a business? Leave a legacy? Create a service or product that is delivered in the best possible or unique way? Learn from three industry experts that have taken on this very challenge. Yes, people that have actually done it, not just understand the challenges in 'theory'!

This workshop will provide you with insights, tools, resources, and strategies to seamlessly make the leap from employee, to running a successful business. It will enable you to shift your mindset to that of a visionary, a leader, and an innovator, whilst readying you for the challenges of business ownership.

KEY TAKEAWAYS

- ✓ Gain clarity on your 'why' for wanting to start a business
- ✓ Uncomplicate the process of establishing and running a business and make sure you're well organised for all accounting and tax matters, maximising your outcome
- ✓ Get organised from before Day One; deliberately plan for your success and track your progress
- ✓ Ascertain your leadership strengths and opportunities for growth
- ✓ How to become a more self-aware leader
- ✓ Business ownership comes with its challenges; ensure you are mentally and physically prepared
